Pure Nature. Perfect Balance

www.primaveralife.co.uk

Why PRIMAVERA®?

PRIMAVERA® aspires to enhance the well-being of the mind, body and soul through a holistic approach to health and beauty. We embrace every opportunity to creatively share our understanding of healing plant therapy and our love of nature.

PRIMAVERA® believe that plants are nature's messengers and that each plant ingredient we use brings a unique set of qualities to a formula. Careful study has given us great insight into the art of blending therapeutic formulas that please the skin and senses, because of this PRIMAVERA® has a thorough grasp of how different plants work together to address specific needs and holistically enhance well being.

CERTIFIED ORGANIC

PRIMAVERA® strives to meet the highest standards of quality and sustainability. PRIMAVERA® use the highest amount of certified organic ingredients available and we actively support organic agriculture projects worldwide. These projects rely on biodiversity, crop rotation, chemical-free pest controls and fertilisers and no GMO's for farming.

PRIMAVERA® will never use synthetic ingredients, parabens or genetically modified plants. Instead we use certified organic ingredients, plant-specific methods, food-grade and organic emulsifiers, 100% natural fragrances and a natural preservation system so that all our formulas are pure and wholesome.

All PRIMAVERA® skincare products are certified by the International organic certification NaTrue (www.natrue.org) which guarantees that all products only use natural and organic ingredients in their formulations. We believe natrue maintains the highest and most thorough standards for certified natural personal care products.

NO ANIMAL TESTING

Animal testing is out of the question at PRIMAVERA®. We do not use any ingredients that have been tested on animals and we do not test any of our products on animals. PRIMAVERA® is strongly against animal cruelty.

ECO-PACKAGING

PRIMAVERA® use recyclable glass bottles and jars, because glass can be recycled repeatedly with minimal loss of purity or quality. In our continuing effort to do good for the Earth we have made a promise to reduce our packaging, this means eliminating outer cartons wherever possible. For products that do need an outer carton, we've opted to use paper made from sustainable and recycled sources, printed with chemical-free printing plates and Eco-Colour dye.
